

Next week we will continue our topic 'Celebrating'. The children will be revisiting all that we have learnt so far. For example, thinking of an occasion they have had a celebration, was it a wedding, an anniversary or a baptism.

Communication, Language and Literacy

Children have really enjoyed listening to the story 'Dear Zoo'. This week we will be making our own story book. Children will be thinking about the animals they would like to include in their book. They will also be thinking of adjectives to describe their chosen animal.

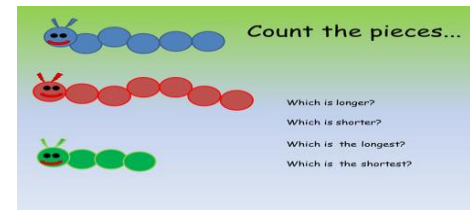

We will be learning the sounds: 'ch', 'sh', 'th', 'ng'
We will also be introducing the tricky words 'we', 'me' and 'be'

At home: Practise writing all the sounds we have learnt so far.

Maths Development

Next week we will be learning about length. They will be learning and using maths vocabulary e.g long, short, longest and shortest. They will compare various objects and put them in order of length.

At home: Show your child two or three objects and ask - which one is the shortest?

General Information

- Thank you to everyone who attended Parents' Evening meetings on Wednesday and Thursday. We hope you found this useful.
- Just to remind you that morning learning is from 9.15am to 9.2am and at 9.25am the gates will be locked and secured for safety of all the children. Please kindly ensure you have said goodbye to your child by this time and leave promptly.
- We have PE every Monday.

Many thanks the Reception team
