

Next week we will be reflecting on what we have learnt about 'Pentecost'. We will be thinking about how we feel now that the Holy Spirit is among us and what it means to receive this special gift from Jesus.

## Communication, Language and Literacy

Next week we will learning about other minibeasts. We will be showing the children where to find information about different minibeasts. We will use this information to produce our own class 'Minibeast fact' book.

We will be observing our chrysalis to see if they are ready to change into a butterfly.

### At Home:

When you take your child to the park, look out for different minibeasts and talk about where you found them. Maybe they could write about it and bring it into school to share with us.

## Maths Development

Next week we will focusing on halving and sharing. We will be learning that the two halves have to be the same. There are 4 apples and 2 caterpillars how many apples can each caterpillar have?

e.g

### At Home:

Ask your child to share items at home between 2 or 3 toys. Do they have the same amount each? Is it equal?

## General Information

- Please make sure your child has a blue St Mary's summer hat. We have seen a few different coloured hats being bought into school. We are teaching the children about how to keep safe in the sun, if they want to do their learning outside they need to have a hat at all times.
- We have noticed that children are bringing sun glasses to school- this is not part of the school uniform policy. When they are wearing their school hat, they do not need sun glasses.

Thank you for your cooperation.

Many thanks the Reception team
